SUMMARY

Enthusiastic first-year B.Tech student passionate about coding, web development, robotics and machine learning. Eager to learn, contribute to innovative projects, and apply classroom knowledge to real-world challenges.

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering** July 2025 - March 2029
Charotar University of Science and Technology (CHARUSAT) Anand, India
 - GPA: 8.10/10.00 (1st year)
- **Higher Secondary** March 2025
DGM School CBSE Ahmedabad, India
 - Percentage : 70.8
- **Secondary Education** March 2023
DGM School CBSE Ahmedabad, India
 - Percentage :77.00

PROJECTS

- **Project: Line Follower Robot** 2025
Arduino Uno, IR Sensor
 - Designed a simple autonomous robot using IR sensors and Arduino.
- **Project:AgroTech Startup – “Farm to Fresh” Concept:** 2025
 - Presented an innovative startup idea promoting direct farm-to-consumer connections using technology to ensure fresh produce and fair pricing for farmers.
- **Project: AI-Powered Smart Attendance & Learning Platform** 2026
AI/ML, Dashboard Analytics, Web Technologies
 - Developed an AI-based platform for automated attendance tracking and learning insights.
 - Generated real-time dashboards to monitor student engagement and performance trends.
 - Provided data-driven recommendations for academic improvement.
- **Project: Student Behaviour Analysis System** 2026
AI, Data Analytics, Visualization Tools
 - Designed an AI-driven dashboard to analyze classroom behavior patterns.
 - Visualized engagement levels, noise trends, and performance insights.
 - Enabled institutions to make data-driven discipline and learning decisions.
- **Project: SarvaNetra – Smart Security Surveillance Robot** 2025
Robotics, ESP32/Jetson, Computer Vision
 - Built an autonomous surveillance robot for real-time monitoring.
 - Integrated camera-based object detection for smart threat analysis.
 - Designed for security patrolling and remote monitoring applications.

SKILLS

- **Programming Languages:** C, C++ , Python
- **Soft Skills:** Team Work, Problem-Solving, Adaptability

AWARDS

- **Winner – Techathon**
Technical Hackathon
 - Secured 1st position.
 - Demonstrated strong problem-solving skills.

PARTICIPATIONS

- **Techathon** – TechGenius Club (Technical Hackathon)
- **HackSprint'26** – GDG On Campus, Swarnim Startup & Innovation University (Technical Hackathon)
- **Smart India Hackathon (SIH)** – College level (Technical Event)
- **Table Tennis Competition** – Spoural'26, CHARUSAT (Sports Event)

ADDITIONAL INFORMATION

Languages: English, Hindi, Gujarati

Interests: AI-ML, Robotics
